Newport, Jan. 12.

NEWPORT,

BY CRANSTON &amp; NORMAN,

127 THAMES STREET.

FRIDAY MORNING AUG. 22, 1851.

**EP** Madame Bouchelle's grand Vocal and Instrumental Concert will take place at the Ocean House Hall, tomorrow evening; a large number of tickets have already been sold, and present appearance indicates that this Concert will be the most numerously and fashionably attended of any of the season. Madame Bouchelle's reputation as an artist is very high, both in this country and Europe, and we have no doubt but that her efforts on this occasion will increase to a still higher degree. In addition to all this, she is a most estimable lady, and is richly deserving of abundant success.

She will be assisted by a lady amateur who will add much to the attractions of the evening. Still further assistance will be rendered by the celebrated Germania Musical Society,—and this simple announcement is sufficient to draw a full audience. The programme is a rich and very attractive one, and contains some of the finest and most difficult musical compositions. With all these inducements, surely the Hall must be filled. The best way to obtain good seats is to secure tickets early.

**EP** The editor of the New London Chronicle is abusing Major Tochman and says that he has married Mademoiselle Jagello, the Hungarian heroine, merely for the notoriety which he expects to gain thereby. Such a charge is perfectly characteristic of the old grannys of the Chronicle, who never had two sound or sensible ideas, in the whole course of his life.

**EP** There is some prospect of a "Zephyr" from the Ocean House, tomorrow morning, although we cannot positively premise; everything will depend upon what kind of a humor our "Spy" is in to-day.

**EP** Among the arrivals at the Ocean House we notice the Right Rev. Bishop of Henshaw, of Providence.

**EP** There will be a Hop at the Bellevue House, this evening.

**EP** There will be a Hop at the Ocean House, this evening.

**EP** We take the following extract from a letter in the Boston Bee, written from the Ocean House, in this town:

An night as expected in an assembly of so much loveliness, there is a great striving for the title of belle, and many rivals are contending for the desired "wreath of distinction." Boston, in my humble opinion, is ahead of any city represented here, in the beauty of its fair daughters, and is justly entitled to be the "banner city." But to make the assertion entitled to credit, let me name, as specimens of the Boston delegation, Miss Marion Shaw, daughter of Hon. Robt. G. Shaw (who is undeniably the belle of Boston, and as far as intellectual, majestic, queenly loveliness is concerned, must be considered by all unprejudiced persons to be the belle of Newport for the season of 1851,) Miss Holbrook, daughter of Alderman Holbrook, Miss Clace, Miss Anne E. Chickering, Mrs. Thomas E. Chickering, Miss Cunningham, Misses Adams, Miss Shelling and Miss Thorndike,—all of whom do credit to the city they represent, either as regards beauty, gracefulness, accomplishments or amiability.—Of those from abroad, Mrs. Dr. Miller, of New York, is certainly one of, if not the, most elegant lady at the Ocean House,—stately, graceful, and extremely handsome,—and is one of our sisters, who have all been celebrated for beauty. Among the married ladies she is decidedly the belle of the Ocean House. Next to her, I should say, comes Mrs. Duncan, of Natchez, for several seasons a belle at Saratoga. Her style of beauty differs from that of almost every lady here, and from its peculiarity is very attractive. She is in every sense of the word a very fascinating woman. Mrs. Tenant, of Philadelphia, and Mrs. Williams, of Baltimore, are also among the most attractive ladies at the Ocean, and receive a great deal of attention.

**EP** Jenny Lind is stopping at the Cliffon House, Niagara, and on Sunday evening, the Buffalo Courier says, she was singing, in her room, some little Swedish hymns. Of course, every body was on tip-toe to hear her, and two gentlemen in their anxiety to get as near as possible to the songstress leaned against her chamber door, when Jenny, having occasion to go out, opened the door suddenly, and the gentlemen fell into the arms of the fair Swede! Miss Lind certainly could not be blamed for exhibiting a little feeling at so unlucky a de nouvou, particularly as the suddenness of the thing, and those who were witnesses to the transaction do not say that her countenance was indicative of pleasure.

**EP** Labor as much to cure thyself of a fault as thou wouldst of a fever.

**REPENTANCE.**—A good husband will repair his house while the weather is fair, not put off till winter; a careful pilot will take advantage of the wind and tide, and so put out to sea, not wait till a storm arise. The traveller will take his time on a journey, and mend his pace when night comes on, lest darkness overtake him; the smith will strike while the iron is hot, lest it grow cool and so he loses his labor; so we ought to make every day the day of reparation; to make use of the present time, so that when we come to die, we have nothing to do but to die, for there will be a time when the door will be shut, when there will be no entrance at all.—*Sperence.*

**EP** "I loved my wife," said Mr. Candie, "and the first two months I left us I could eat her up. Ever since, I have been sorry I didn't."

**AN OLD ONE.**—There is a competitor on the Boston Evening Gazette, who has been at work on that one paper for a period of 31 years, and during that time he has not been the distance of a mile from the office.

**AN ORCHARD THAT WILL PAY.**—Messrs. Moore & Houghton of Cleveland have 93 acres all in one orchard, 3 1/2 miles east of that city. They have 65,000 peach trees of the best varieties, 2,000 apple, 400 cherry, 750 quince and about 7,000 pear, apricot, nectarine plum trees, and grape vines. There will be several thousand baskets of peaches, and as they are rather scarce this year, speculators at Cincinnati and Buffalo have already offered three dollars per bushel for the crop. This, we should think, will pay—as it ought.

**THE PRESIDENT'S TOUR.**—We learn from the White Sulphur Springs that the President, accompanied by Mr. Secretary Stuart and some other gentlemen, arrived at that popular and beautiful watering place on Wednesday evening last. A committee of gentlemen from different Southern states met the President the previous evening some twenty miles from the Springs, and accompanied him thither. His arrival was greeted by the large crowd sojourning at the Springs, as well as by a great many people of the neighboring country, assembled to see him, with the most cordial demonstrations of respect, and without distinction of party.—*National Intelligencer, 18th.*

**THE LATE DR. OLIS.**—The funeral of the late Rev. Dr. Olin took place at Middletown, Ct., on Monday afternoon, and was attended by a large concourse of clergymen and laymen, from various parts of the country. Religious services were performed at his late residence, after which the procession moved to the Church, where an address, of great force and solemnity, was delivered by Rev. Bishop Jones, other clergymen also taking part in the exercises. The body was deposited in the cemetery of the University, in a grave opposite that of the lamented Fisk, his predecessor in the presidency of the Wesleyan University.

**A Writer in the Edinburgh Journal** thinks that there is no reason why a piano should not be made as cheap as a clock.

**THE QUINTESSENCE OF LOVE.**—Foster, of the New York Day Book, says:

"Our wife wanted to run away with another man, we would bid her God-speed, for we think too much of her to see her want for any thing."

**COUNSEL AT TUNIS.**—The Washington Republic has an interesting letter from Paris, describing the reception of John Howard Payne, the newly appointed American Consul. The greatest honor of the nation were shown him, and the Bey expressed himself as personally gratified by the return of Mr. Payne, to his former station.

**LONGFELLOW IN EUROPE.**—The reputation of this eminent American poet is echoed back to us by the arrival of almost every steamer from the old world. His works are republished in Great Britain by no less than eight rival houses, and at the railroad depots boys are crying his writings in neat volumes at one shilling each. A late London journal says he is the poet most read in England at the present time, Tennyson not excepted. Although Longfellow's popularity in his own country is wider than that of almost any other author, it is even greater in Europe than at home.

**SALLIE WARD.**—Sallie Ward, late Mrs. Lawrence, is to be married to Dr. Hunt, of Louisville, a near relative of Henry Clay.

**EP** J. F. Crampton, Secretary of the British Legation, assumes the charge of Mr. Bulwer's mission during his absence.

### Arrival of the Brother Jonathan.

The steamship Brother Jonathan arrived at midnight last night; she brings nothing later from California. She left at Chagres, the Falcon awaiting the mails.

The steamship Ohio arrived at Chang- res on the 6th inst., with a broken shaft and one engine disabled, so that she will go to Navy Bay and await orders from her owners. The Ohio broke her shanty the 6th inst., off Kingston.

The steamer Union went ashore in a fog on the 5th of July, at 3 o'clock, A.M., four days out from San Francisco, on St. Quintin's Reef. She is a total wreck. She had three hundred passengers on board, and three hundred thousand dollars in gold dust. The passengers and crew were all saved except six thousand dollars stolen by passengers and crew. No freight saved.

The Northerner arrived at Panama on the 4th inst., from San Francisco, with \$1,500,000 gold dust on freight. The dust belonging to the passengers by the Union was also on board the Northerner, so that the total amount would not be far short of two millions of dollars.

The steamer Commodore Stockton, Capt. E. H. Ackley, returned to port after having sprung a leak, about 250 miles on her way to San Francisco. She had eighty-nine passengers, who afterwards demanded the return of their passage money. As the demand could not be complied with, they forced the crew to cease work and took complete possession of the vessel. A statement of the facts had been laid before the American Consul, Mr. Corwin, and his protection sought by Capt. Ackley.—*N. Y. Mirror.*

**NEW YORK, AUG. 21.**

**HIGHLY IMPORTANT FROM CUBA.**—LANDING OF LOPEZ. The steamer Winfield Scott arrived this forenoon, in 5 days, 22 hours and 30 minutes from New Orleans—the quickest run ever made. Key West dates of the 15th, state that Lopez, with 150 men, had made a landing at Cubanos, 40 miles west of Havana.

The Pampero then returned, and made way for Jacksonville, to take on board Gonzales and his forces.

**MISTER KILLED BY LIGHTNING.**—In New London, Pa., on Sunday afternoon last, the Methodist Church was struck by lightning during divine worship, and the pastor, Rev. Jones Hossey, who was in the pulpit, almost instantly killed.—Several of the audience were also severely stunned. The building sustained no damage. The reverend gentleman leaves a wife and two children.

11. A course of Lectures on Didactics, or the theory and practice of Teaching, by Professor S. S. Green.

These courses are all distinct from each other, so that any person desirous of pursuing one or more, may do it at his option, if he does not wish to proceed to a degree. If he enters for a degree, he must pursue the studies required for that degree, having each option as is allowed by the law.

The price of tickets is as follows:

For three or more tickets, \$100 each.

" two, 900 "

Identical ticket is taken, 900 "

For the course in Civil Engineering or Analytical Chemistry, the fee varies from \$10 to \$20 according to the time devoted to the study.

Each course will generally occupy one entire day, throughout the term.
